by:

On 5-27-2019, at approximately 0351 hours, I was dispatched to a battery complaint at the Mon General Hospital. MECCA 911 advised the victim was attacked on the Pleasant Street Bridge. prior to receiving medical treatment, I spoke with the victim, Jared Rote, in the parking lot of the hospital.

Rote stated at approximately 0345 hours, he was walking home from the downtown area towards his residence on Clark Street. Rote stated he began walking on the left hand side of the Pleasant Street Bridge, from High Street. Rote stated he heard a female voice behind him and then was grabbed from the rear. Rote believed he was attacked by three subjects. Rote stated he partially saw a males face and described him as a light skinned black male. Rote stated one of the subjects stated, "this is what you get" while he was being attacked. Rote attempted to fight back and the altercation lasted approximately 1 to 2 minutes. Rote believed he was cut several times by a sharp object, however, he never saw a weapon. Rote was able to escape and ran across the bridge and called 911 once he arrived at his residence. Rote made a statement that his his boyfriend returned to the bridge in search of the suspects. It is unclear if Rote remained at his residence or accompanied his boyfriend to the scene of the incident.

I observed several minor lacerations on his chest, face, and arm.

Rote was unable to describe the suspects or confirm their identities.

At approximately 0500 hours, I conducted a foot patrol of the area. I was unable to find any evidence or cameras in the area where Rote stated the altercation occurred

Please refer to detectives.
